

PROFILE

AI & Data Engineer with a dual Master's in Data Science and Intelligent Computer Systems. Builds Python pipelines, agentic workflows, and automated evaluation systems for AI-driven data extraction, across the full ML lifecycle. Available immediately

EXPERIENCE

AI Quality · Apiday, Paris Dec 2025 – Sep 2026

- Built automated validation pipelines for agentic data extraction, reducing hallucinations and manual review time
- Co-developed a conversational AI search feature for querying structured datasets in natural language

Intern · Eden AI, Lyon Jul – Sep 2025

- Integrated 10+ LLM providers behind Eden AI's unified endpoint with cross-provider prompts
- Built an LLM leaderboard benchmarking models, using Ragas and Opik for evaluation

Intern · Laboratoire Lyon 1, Lyon Oct 2024 – Feb 2025

- Evaluated the Y Social platform for simulating social dynamics, analysing results with data mining
- Contributed findings to lab research on LLM-driven social simulations. NetworkX, SQLite3

Intern · IA & SD, USTHB Dec 2023 – Jun 2024

- Preprocessed the SeasFire satellite dataset (xarray) into model-ready tensors
- Built and compared TensorFlow architectures predicting wildfire spread

SKILLS

Languages & data Python, SQL, Java, C/C++, Pandas, NumPy, xarray
AI & ML LLM evaluation, prompt engineering, agentic AI, deep learning, data mining
Frameworks LangChain, OpenAI & Eden AI APIs, Ragas, Opik, TensorFlow, Scikit-learn, Transformers
Data & cloud Oracle, MySQL, MongoDB, Power BI, Tableau, GCP, Git, GitLab CI/CD
Web & design JavaScript, Next.js, Leaflet, Figma, Adobe Illustrator

PROJECTS

EcoTrajet: carbon footprint web app Lyon 1, 2025
Compares transport modes with routing and an interactive map. Next.js, Leaflet, OSRM, Jest, GitLab CI/CD

Information retrieval system USTHB, 2024
Boolean, vector-space, probabilistic and neural models, evaluated on LISA with NLTK and Transformers

Data mining system USTHB, 2023
Preprocessing, supervised and unsupervised learning, and model evaluation with Scikit-learn and Pandas

EDUCATION

M.Sc. Data Science & Business Intelligence EDC Paris 2025 – 2026

Master 1, Computer Science Université Claude Bernard Lyon 1 2024 – 2025

M.Sc. Intelligent Computer Systems USTHB, high honours 2022 – 2024

ALSO

Languages French (native), English (advanced, TOEIC), Kabyle (native)

Volunteering ETIC Student Club, ESI: led video production, 2019–2024. Micro Club, USTHB — IT and UX/UI, 2022-2024

Interests Hackathons, video editing and production, graphic design, running
